

Research Paper in Soft Computing

Instructor: Dr. M. Irfan Uddin

Email: irfanuddin@uoswabi.edu.pk

Marks: 50 Marks

Semester: Spring 2026

Date: April 6, 2026

The objective of this activity is to develop a high-quality research paper in the field of soft computing, suitable for submission to an international conference proceeding.

Each student is required to write a research paper on a topic relevant to soft computing. The paper should demonstrate:

- Strong conceptual understanding
- Critical analysis of existing work
- Novel contribution (method, framework, comparison, or application)

Students can select topics from (but not limited to):

- Fuzzy Logic Systems
- Neural Networks & Deep Learning
- Evolutionary Algorithms (e.g., Genetic Algorithms, PSO)
- Swarm Intelligence
- Hybrid Soft Computing Models
- Neuro-Fuzzy Systems
- Soft Computing in Healthcare / Finance / IoT / Smart Cities
- Explainable AI in Soft Computing
- Optimization using Soft Computing Techniques

Students must follow IEEE Conference Template (strictly required)

- Length: Minimum 6–7 pages
- Must include all standard sections, such as:
 - Abstract
 - Keywords
 - Introduction
 - Literature Review
 - Methodology / Proposed Work
 - Results and Discussion
 - Conclusion
 - References
- Download IEEE Template: <https://www.ieee.org/conferences/publishing/templates>
- Students are encouraged to submit the paper to this conference: <https://iccg2026.awkum.edu.pk>

Submission Deadline

- May 31, 2026

Important Instructions

- Plagiarism must be less than 15% (strictly enforced)
- Proper citations and references are required
- Use recent research papers (preferably last 5 years)
- Figures, tables, and diagrams should be clear and relevant
- Submission format: PDF only
